- e) B.4 – F1 S/C – Recommended
- f) B.5.3 – Bureau – Recommended
- g) B.5.5 Bureau – Recommended
- h) B.9 F1 S/C – Recommended
- i) B.11 – Bureau – Recommended with the following F3C TM amendment

Change the Bureau text to :

Transmitters that are not impounded

during the specified period(s), may not be used in the competition for that day, but must be retained by the officials in the impound for safety reasons.

Similarly, all transmitters must be withdrawn at the end of the day's flying activities, and may not be left in the pound, unless by special arrangement with the organiser. Failure to withdraw a transmitter for any reason will result in a fine of 50 Euro per competitor of that team. In the case where all competitors utilize Spread Spectrum (SS) technology the organizer is not required to use a transmitter impound.

~~**Spread Spectrum transmitters are not required to be impounded. failure to withdraw a transmitter, by mistake or inadvertence, for whatever reason, will result in a reduction of 2% of the score of the competitor's next flight. Spread spectrum transmitters are not subject to this restriction but may be impounded if the Organisers so require.**~~

- j) B.11 – France – Not recommended
- k) B.16 – F3A S/C – Recommended
- l) B.16 – UK – Recommended
- m) B.16 – UK – Recommended
